

# IOS6时代的JAVASCRIPT与OC通信

**WEBVIEW & IFRAME & JS**

据理

能

88  
89 **\_\_TVOS\_PROHIBITED** @protocol UIWebViewDelegate <NSObject>

90  
91 @optional

- 92 - (BOOL)webView:(UIWebView \*)webView shouldStartLoadWithRequest:(NSURLRequest \*)request  
navigationType:(UIWebViewNavigationType)navigationType;
- 93 - (void)webViewDidStartLoad:(UIWebView \*)webView;
- 94 - (void)webViewDidFinishLoad:(UIWebView \*)webView;
- 95 - (void)webView:(UIWebView \*)webView didFailLoadWithError:(nullable NSError \*)error;
- 96

# WEB VIEW & IFRAME & JS

iOS6原生没有提供Javascript直接调用Objective-C的方式，只能通过UIWebView的UIWebViewDelegate协议方法来做拦截，并在这个方法中，根据url来调用Objective-C方法

```
38  
39 __TVOS_PROHIBITED @protocol UIWebViewDelegate <NSObject>  
40  
41 @optional  
42 - (BOOL)webView:(UIWebView *)webView shouldStartLoadWithRequest:(NSURLRequest *)request  
    navigationType:(UIWebViewNavigationType)navigationType;  
43 - (void)webViewDidStartLoad:(UIWebView *)webView;  
44 - (void)webViewDidFinishLoad:(UIWebView *)webView;  
45 - (void)webView:(UIWebView *)webView didFailLoadWithError:(nullable NSError *)error;  
46
```

IOS6 时代的 JAVASCRIPT 与 OC 通信

---

# JAVASCRIPT调用OBJECTIVE-C

Javascript 以及 HTML 代码
